At the same time they sent an application to Secretary of Agriculture Wallace for a statewide hearing in Atlanta designed to fix a minimum price under federal authority of the recently enacted farm act.

H. K. States, Bishop Says in Letter.

WASHINGTON. June 2—(P)—
Bishop James Cannon Jr. today sent to 8,500 pastors of the Methodist Episcopal Church. South, a statement that the result of the movement for repeal of the eighteenth amendment "rests with the southern states."

In a letter signed by him as president of the church board of temperance and social service, and by Eugene L. Crawford, as secretary, the bishop said "the greatest present danger is the effort to make the repeal of the eighteenth amendment an essential part of the program of the federal administration."

"The issue presented is clear and unmistakable," wrote the bishop. "It is not and must not be made a question of supporting the program of the federal administration."

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN.

The drive of Hitler against the Jews, which has resulted in the utter

ruination of a prosperous middle-class group in Germany, was inspired by dark and antiquated doctrines. Yet, upon closer examination, we find that the doctrines of Jew-hatred were a mere pretext to do something and to find support for something which Hitler simply had to do. This man had promised prosperity and well-being to the German middle classes in general. When the hour of his victory came, therefore, he had to deliver the goods, or begin delivering

them.
This he could not do, of course. But what he could do was to throw the "Aryan" middle class elements as a sop the ruination of the Jewish middle-class elements, who had been the former's competitors in business. As' limensions this is what has happened in Germany. Future historians seek-ing to pierce the veil of all the ob-scurantism and hatred and confused issues will find this the genuine metif of Hitler. Jew hatred doesn't explain it. Hatred is something that is work-ed up artificially. It is not an inher-ent trait in human character. Yet nothing can be produced so easily as

hatred, especially when recourse is had to unscrupulous slander.

The question we should ask in the presence of world events of importance is: Why is this so and not otherwise? Why did Hitler unleash the anti-Jewish terror? Why did Rome destroy. Canthage, Why did Noseless destroy Carthage? Why did Napoleon enforce an embargo on British prod enforce an embargo on British prod-ucts? Why did the Great War come in 1914? Why was the Civil War fought in Americs? Every time, if we look carefully, we will find an eco-nomic motif at the back of the shout-ing in the market place. ing in the market place.

The worst is that not infrequently such effusions are just as unintelligible to the rest of us. I have little experience with poets. But I have seen some at work. Among them Andre Spire and Frank L. Stanton, the gentle poet of the Georgia soil, with whom I shared a room in the editorial department of The Atlanta Constitution for two years. Stanton had Thursday, said:

We see the utter abandonment of morals in public and private life, with authority in the home and easily today," he used to tell me more than constructed them, and slowly built them up again. Other days the flow of inspiration rippled lightly along. It depended on a whole lot of circumstances. The color of the sun contributed. U. S. COMPLETES MITCHELL CASE

Defense To Ask Dismissal of Charges When Court Opens Monday.

NEW YORK, June 2.—(P)—The government completed its case today against Charles E. Mitchell, former chairman of the National City bank charged with evading \$550,000 income taxes in 1929 and 1930. Conviction carries a maximum penalty of 10 years' imprisonment and \$20,000 fine. Max D. Steuer, the banker's attorney, said the defense's first move when court reconvenes Monday would be a motion to dismiss the charge. If this is denied he will be prepared to introduce his witnesses, and both Mr. and Mrs. Mitchell, he said, will take the stand.

United States Attorney George Z. United States Attorney George Z. Medalie concluded the presentation of evidence he started three weeks ago with the testimony of Martin Kunkel, a special agent of the treasury department, who contrasted Mitchell's tax returns showing net losses with the government's computations showing profits.

As the prosecutor said, "the govern-ment rests." Mitchell leaned across the counsel table and congratulated Steuer on his conduct of the cross-manufactor.

examination. Except for Kunkel's testimony Steuer's cross-questioning of Frank J. Maguire, assistant secretary-treasurer of the National City Company, occu-

of the National City Company, occu-pied the entire day.

Steuer sought to bring out that the company's action last year in writing down to \$1 a payment of \$1,860,000 to 11 officers in 1929, including \$696,-606,66 to Mitchell, did not mean that it did not expect the officers to repay the money.

Mitchell did not report the receipt of the money in his income tax re-

of the money in his income tax re-turn, claiming it was an advance on expected profits, to be repaid if they failed to materialize. Government festimony yesterday was that not only had the item been written down to \$1 but that Mitchell had paid neither interest nor principal and that he had posted no collateral to secure the

New Indictments Seen Against Insull

WASHINGTON, June 2 .- (AP)-

WASHINGTON, June 2.—(P)—
The justice department was reported today to be considering new indictments against Samuel Insull, former Chicago utilities magnate, which would permit his extradition from Greece.

While officials declined to specify what the new developments in the case were, it was said there was a strong possibility of additional indictments being sought.

The former utilities magnate was in Europe when indicted last year in connection with the failure of his company with a loss of millions to investors. He moved to Greece and there, after a spectacular hearing, the United States was denied extradition on the ground that the charges inon the ground that the charges inextraditable.

SHUFFLE OFF TO BUFFALO.

Georgia Tech's golf team will shuffle off to Buffalo and the national intercollegiate matches shortly after mid-June. And the Jackets have a great chance to finish up there.

BAER NEVER ON CANVAS.

Maxie Baer, the Omaha (Neb.) lad who bills himself from Livermore, Cal., has never been knocked down. There is a first time to everything. One recalls that Gene Tunney had never been placed in a horizontal position until he was knocked down at Chicago, the evening of the return engagement with Dempsey. He sat there for 14 seconds.

Still, one can't escape the fact that a fellow who has been in there trading punches as long as Baer and has escaped a knockdown, must have something.

Baer has had several 20-round battles in his career. And he finished strong in all of them. He showed that he could go that distance without tiring too much. Schmeling has never gone more than 15. He was stronger than Jack Sharkey at the end of their 15 in the Garden bowl last summer but he was tired himself.

Baer resembles the old-timers more than any fighter wh has come along in years. He does road work, somethin Schmeling has never done. He works harder than Schmeling under the coaching of Jack Dempsey, who was about the las of the old school so far as training went. And, to make him re-

ney was knocked to a sitting position at Chicago. The Dempsey fans will always insist, of course, that Dempsey should have been counted "in." They forget, for instance, that Dempsey should have been counted out in the Firpo fight.

John L. Sullivan knew when he had enough and never tried to beat Corbett again. Corbett tried to come back but Jeffries was still too good. Jeffries tried it but was no match for Johnson. Johnson never tried after losing to Willard. Dempsey beat Willard so badly there was no talk of a return match there. And so on. Dempsey couldn't regain his title. Tunney retired.

Schmeling held his title only a few months. He is up against the old, old jinx. But of all who have tried he seems to have the best chance. If he hurdles the Baer match he will be up against either Sharkey or Carnera. It will be 1934 before he can get to them, each of the championship principals having said he would not, in the event of victory, defend his title before 1934. Should Schmeling win he would still be good enough to win from Carnera and Sharkey, two years older than in 1932, would hardly be able to stem the rush.

THROW OUT THE LIFE-LINE.

Your Uncle Wilbert Robinson is off on a mission on which he hopes to find a life-line strong enough to save the Crackers.

The Crackers can use one. Something seems radically wrong. It is getting a bit tiresome to have players, who perform well with other clubs, come to Atlanta and fail. It must be something more than a deep and terrible curse, as one of my esteemed contemporaries

The natural assumption, when a club fails to win, is that something is wrong somewhere. This might be assumed to be a false assumption were it not for the fact that it has been, for years, an annual happening. Ball players who have played ball until this year, are not coming through. Seek as one will there seems to be few excuses to

find for the failure of the 1933 Crackers to become a winning unit. The owners have done their part in a splendid way.

Here's hoping that Your Uncle Wilbert is able to toss out the life-line and tow the Crackers into the first division.

CAVEAT EMPTOR.

The Cracker buyers seem to be too honest. They take the word of the David Harmus in regard to the players offered on the hoof at the annual winter meetings.

And when spring comes 'round the Crackers usually find they have a lot of first-class citrus fruit, or lemons, on hand.

Were one of the all-star teams, now in the process of state tion for a game at the World's Fair, to be moved bodily to the Crackers, the players would develop blind staggers, the hives, Aretiles Aretiles (Yosmik If Were one of the all-star teams, now in the process of selecthe shingles and finish in fifth or sixth place. Maybe it is a curse after all. If it isn't then you explain it. I can call all the years but this one.

WHITE'S STATUS

Sanford Delays Action Until Board of Control Meets.

By Al Smith.

ATHENS, Ga., June 2.—President S. F. Sanford, of the University of Georgia, said today that he would present the recommendation of student leaders that Bill White be redent leaders that Bill White be re-tained as baseball coach at Georgia to the athletic board of control at its meeting in Athens some time dur-ing the summer.

President Sanford, the guiding fig-ure in university athletics for the GEORGIA STATE LEAGUE.

President Sanford, the guiding fig-ure in university athletics for the past quarter of a century, said that he heartily agreed with the students in "their desire and wish to retain Coach White." He said that he was "gratified to know of the esteem in which Coach White is held and of

which Coach White is held and of the admiration and love that the men of the university have for him."

At the same time President Sanford announced that he would recommend to the board of regents of the university system the installation of a broad program of intramural athletics and a physical education department for men as modern as that available to women students of the university. The plan for the physical education department, which went further than students had asked in their petition to President Sanford, would allow students in the university to receive degrees in physical education and would equip them for the teaching of mass athletics.

STUDENTS AROUSED.

The announcement two weeks ago of Coach White's dismissal as base-ball coach at Georgia after 13 years of service aroused a storm of protest among Georgia students.

PRESENT REQUEST.

Student leaders last Saturday laid their request for Coach White's retention before President Sanford. They pointed out the universal love and admiration which Georgia students felt for Coach White. They declared that he was, to them, the personification of the Georgia spirit and that he seemed like a part of the university tradition. They also told the president of the high regard in which Coach White is held by Georgia alumni. Maple, C. Maple, C. Maple, Maple, C. Maple, Maple, C. Maple, Map

Frankfurter Tells Lawyers NINE HAVE QUALIFIED Of 'New Economic Order'

Harvard Thinker Addresses Georgia Bar; Judicial Council for State Urged by Body.

with disastrous moral and economic consequences," is the governing issue of the present, Georgia lawyers were told here today.

"Only thus shall we be able to understand new problems and devise ways for dealing with them." Dr. Felix Frankfurter, of Harvard University, said in an address before the State Bar Association.

"We are in a new social and economic order." Dr. Frankfurter said, "and to realize it passionately, not platonically, is the central equipment for modern statesmanship. A good part of the past is dead, and to hope for its revival is tragic illusion. New circumstances condition the nation's wealth-making; how they are met will determine the national welfare."

Dr. Frankfurter delivered his address shortly before a committee headed by Hatton Lovejoy, of La-Grange, past president of the association, was authorized to continue efforts, to have the next legislature efforts to have the next legislature establish a judicial council in the

The council would be made up of lawyers, judges and laymen, with authority to reorganize judicial practice and procedure with a view of saving time and money.

The Harvard man, recognized figure in legal circles throughout the United States, said that economic and social recovery must deal with factors "which in their combination certainly present a new situation."

First and foremost is the arrest in the rate of increase of population, he said, and equally permeating "is the unparalleled weight of our debts, public and private." This indebetedness, he declared, colors the whole economic situation and pre-whole economic situation and pre-New Factors. situation and pre

"To secure a real financial equilibrium, a very substantial cut in both public and private debts appears unavoidable," the speaker said, though there are more and less painful ways of doing it. Through their conversion loan the British have taken the lead in doing what must be done; they have also shown how euphemism softens blows. But that the heavy mountain of debts will have to be considerably scaled down is clear, at least to one outside the professional mysteries of finance." Professional mysteries of finance."

Intimately bound up with public indebetedness is the increasing burden of taxation, Dr. Frankfurter said, and good government demands a check. But care must be taken, as "the country cannot become richer by making the quality of its social

life poorer.

"Child welfare, health, education, recreation, security for old age, a wider diffusion of aesthetic opportunities for the masses, are dictated alike by the amenities of a civilized society and the consumptive needs of wedger, industry.

The justices of the supreme court "are arbiters of social policy heaving their duties make them so," because their duties make them so," and in a period like the present social adjustments must be quickened.

JINKY RECEIPTS

At Sea Island, Ga.

An event happily anticipated as a grand finale to be club year of the West End Study Class will be a party given the members at Sea Island Beach by invitation of the retiring president. Mrs. Willis M. The class will be guests in Mrs. Everett's beach home from June 9 to 12, an additional pleasure arranged being a pilgrimage to the many near-by historic places.

"Church Pilgrimages" being the or "Church Pilgrimages" being the order of the day for the regular meeting on May 24; Mrs. H. R. Berry and Mrs. T. L. Jennings, who had charge of the program, conducted the group on a visit to the First Presbyterian and Peachtree Christian churches and to the Jewish Temple, one of the last houses of worship to be erected in Atlanta. At each stop the minister gave a greeting and told of the interesting features of his church. Dr. J. Sprole Lyons pointed out the baptismal font as probably one of the most historic possessions. ed out the baptismal font as probably one of the most historic possessions of the First Presbyterian church, being a gift from the excavations at Ephesus by the world-famed traveler, Dr. William T. Ellis. The deep significance and continuity of the memorial windows were explained and the Winship Memorial chapel was visited.

The class was welcomed at the The class was welcomed at the Peachtree Christian church by Dr. R. W. Burns, co-pastor with Dr. L. O. Bricker, who made his informative talk in the nature of answers to questions, which brought out a description of the true Gothic architecture of the building, the handsome gifts for the pulpit and the beautiful windows. At the imposing entrance of the Jewish Temple on its green slopes, Rabbi David Marx received his visitors and proved himself an illuminating conductor through the interesting building with its symbolic features, impressive decorations and complete equipment.

Bidding a Grand Slam

There is no doubt in my mind a all that the introduction and genera use of the Four-Five No-trump Convention has eliminated the element of luck from the making of such bids. Slam premiums are the rewards for one of the finest of all human qualities—namely, precision of thought—and the use of this convention certainly tends strongly toward the conreging tends strongly toward the con-veying of precise information in a precise and definite way, making un-necessary the reaching of Slams by trial and error, so common with play-ers who do not use such an accurate

system.

Here, for instance, is a hand in which a Grand Slam can be accurately and safely bid, but not without the use of the Four-Five No-trump Convention, or, at least, not with the accuracy that can be assured by these most informative bids. It was played in a Publicate game in which there ed in a Duplicate game in which there were a number of players who had not yet familarized themselves with the latest in Slam-bidding methods. These players failed to reach the ultimate goal—the Grand Slam—that was easily achievable. In fact, one pair stopped at four hearts. Others, using methods that lacked precision, went as far as six, but the only ones who reached the Grand Slam were those who used the Four-Five No-trump

ioned and old-fogey or as ultra-modern and excessively liberal. However, if one may paraphrase the old definition of good English which says, it is that written and spoken by the best people, to read, good manners are those adopted and practiced by the best people, then it is proper for a girl to go to the room or the apartment of her men friends. The young society people all over the country do make a practice of doing this and their parents approve of it. One mother of a popular debutante has told me so.

But in your particular case a dif-ferent answer to your question has already been made by one who evi-

In this age when there is so much freedom among the sexes, when there is such a fine narrow line of demarcation between what is promise.

when there is such a fine narrow line of demarcation between what is propper and what is improper, a girl cannot find a better guide for her behavior than the ideals of her best boy friend holds up for her. When a man falls in love with a girl, his first instinct is to protect her from the breath of gossip. It is not enough for him to know that she is good. By JOHN L. COOLEY.

NEW YORK, June 2.—(P)—Securities struck a strong stride in today's markets, outstepping the commodities by a wide margin.

The rush to buy stocks developed almost into a stampede at times. Net gains for active leaders ranged from about 1 to 10 points and volume swooped up to 6.862,660 shares.

The closing composite for 90 stocks stood at 80.4, up 3.1 points net, and another new high since November. 1931. Bonds were especially strong. Grains rallied from early heaviness but made rather hard work of the rise and were little changed on the day. Cotton was somewhat backward, though it finished with small gains.

In shares, utilities took their turn at leadership. Rate uncertainties and recent declines in earnings have made them less favored than either rails or industrials, but the current improvement in power output no doubt caused traders to feel that they merited attention. Consolidated Gas, International Telephone, American Telephone, Public Service of New Jersey and Western Union raced up 3 to nearly 6 points.

Allied Chemical, some of whose

Allied Chemical, some of whose larger stockholders have organized a committee to effect changes in the management, was a sturdy gainer, up 10 5-8; so was Homestake which hopped up 20 points in another general advance by the gold shares. Most industrials were content with an appreciation of 1 to 3 points, while rails found themselves in the same range. Metals were quiet, doubtless because no change was made in copper quotations; oils also tended to drift. United States Steel common set a new high at 54 1-4 and closed near the best, up 1 1-2. American Can, Chrysler, General Motors, Montgomery-Ward, Harvester, Sears-Roebuck, General Electric, Westinghouse, Bethlehem and Corn Products were up 1 to 2.

Credit Drive Impressive.

The financial community appears to be much more impressed by the current credit drive of the reserve banks than by their earlier attempts. One reason for this confidence, bankers point out, is that prices are now rising whereas the last campaign was conducted before deflation had been completed. Furthermore, the government has announced its intention of

completed. Furthermore, the government has announced its intention of keeping commodities on the upgrade until a satisfactory level is reached.

Word that a German debt moratorium declaration might be expected next week was received before markets closed, finding reich loans strong; they finished not far from their highs. Hope was expressed here that some menns of averting a "debt holiday" could be found, though Dr. Schacht said definitely that the reichshank could not permit further deplebank could not permit further deple-tion of its gold and foreign exchange

SUGAR.

NEW YORK, June 2.—Raw sugar was firmer today and now high records for the season were established on sales of duty frees at 3.45 and cuban at 3.50. Refiners purchased 64,600 bags of Puerto Rican at 3.45, 75,000 bags of Cuban at 3.45 to 3.50. for June positions, and 20,000 bags of Puerto Rican at 3.45, 75,000 bags of Cuban at 3.45 to 3.50. for June positions, and 20,000 bags of Puerto Rican at 3.45, 75,000 bags of Cuban at 3.45 to 3.50. for June positions, and 20,000 bags of Puerto Rican at 3.45, 75,000 bags of Cuban at 3.45 to 3.50. for June positions, and 20,000 bags of Puerto Rican at 3.45, 75,000 bags of Cuban at 3.45 to 3.50. for June positions, and 20,000 bags of Philippines for June-July at 3.50. The refined market was unchanged locally at 4.50, but some of the western refiners advanced 10 points to the hasis of 4.60, influenced by the firmness of the faw market.

The sugar market will be closed tomorrow and on all Saturdays during the months of June, July, August and September.

COFFEE.

NEW YORK, June 2.—Coffee was irrecular today with No. 7 contracts steadler on European busing and covering, while Santos prices sagged slightly under weekend liquidation.

The slightly better prices of 9.31 to 9.76 crealized for grain stabilization coffee yesterlay were said to luve been discounted and with demand for the actual restricted, traders lacked a fresh incentive for operations.

Brokers' Views

BEER & CO.—Justification of the policy of making commitment on recessions was found in Friday's session. We continue to advise the following of this course.

BEER & CO.—There is still a strong be-lief that the market is oversold and a substantial reaction is overdue. However, the consensus is that in such an event, it would be a good opportunity to buy.

By VICTOR EUBANK.

NEW YORK, June 2 .- (A)-Led by secondary issues, the bond market swept forward today in one of the fastest sessions of the year. Gains of 1 to 6 or more points were recorded

n all categories.

The average for 60 domestic corporate loans advanced 1.2 points to 71.5, another new 1933 peak, and sales totaled \$20,558,000, par value, the largest aggregate since May 11.

Low-priced rails and utilities were in the forefront of the raily, with the industrials not far behind. While the higher grade groups showed little enthusiasm for the recovery, they were fairly steady. United States government securities advanced moderately

NEW YORK, June 2 .- (AP)-Continued industrial expansion was reported by the Dun & Bradstreet Weekly Review today.

"The forward swing," it said, "rests on the definite upward trend in consumption, employment and wage levels, the importance of which is not fully realized as yet, as the transition has been such a sudden one, and constructive developments have been constructive developments have been so rapid. The course for trade progress has been cleared as more of the extraneous influences which retarded the pace for a time have been rendered impotent by the well-fortified the pace for a time have been rendered impotent by the well-fortified transifications to which the improvement is being provided by the general support being given the administration's sweeping industrial recovery measures, which open the way for conduct of business on a reasonable earning basis, and the growing able earning basis, and the growing appreciation of the importance of credit and sound credit practices in commerce and industry.

"Besides, the constant widening of employment, the rises in wage scales announced from week to week, and the gain of nearly 20 per cent in the prices of farm products in the last two months have opened a new source of spending power which was not discernible even faintly six months ago."

Both retail and wholesale buying continue to improve, the Review said. Some large department stores report volume "fully 10 per cent ahead of the 1932 level, with further gains in prospect."

Measure for Carrier Rejuvenation Headed for Certain Passage.

By CECIL B. DICKSON. WASHINGTON, June 2.—(P)— The threat of opposition to the administration railroad bill faded in the house today and the measure moved toward certain passage while word spread that Joseph B. Eastman would

be the railroad co-ordinator. In this capacity, Eastman, who has been a member of the interstate commerce commission for the last 10 years, would direct the effort to bring the railroad industry to a paying basis.

The measure provides that in the event of an appointment of an intertate commerce commissioner to the ost he may return to the interstate commerce commission at the end of his year of service. However, the president is authorized to continue the o-ordinator for a second year by

Dr. W. M. W. Splawn, former pres-lent of the University of Texas and house interstate commerce committee transportation expert, was spoken of as having been definitely chosen to take Eastman's place on the commis-sion after he completes an investiga-tion of public utility holding com-

"Former President Hoover and other high officials of the federal government as well as the governos of states and other officials throughout the nation urged the people to keep their money in their banks.

"The present president closed all the banks, allowing only certain ones to reopen. I heartily applaud the president's motive in wanting to strengthen the banking system, but why should the depositors in closed banks hear the entire burden?

"It is only justice that the cost should be equalized among all depositors. To see that such justice is done is the object of this movement."

WASHINGTON, June 2.—(#P)—
The national public debt increased during May to \$21,835,385,981 compared with \$21,441,209,176 at the end of April and \$19,036,916,646 on May 31 a year ago.

The \$2,798,000.000 increase last year brought the total debt closest to the highest point it has been in half a decade.

The railroad bill, which also places holding companies under the jurisdiction of the interstate commerce commission and repeals the recapture clause of the 1920 transportation act to cancel government claims of \$351, 500,000 against railroads for excess profits, was brought up in the house under procedure permitting amendments.

In opening debate, Chairman Rayburn, of the house commerce committee, said the labor retention amendments inserted by the senate to prevent the carriers from discharging employers for economy purposes would interfere with a reduction in freight rates but that the rates might be reduced through other economies.

"There must be reorganization of railroads," he said. "Their capital structure must be scaled down to a point where fair returns may be made. And I am of the deliberate opinion that the railroads would make more money if there was a substantial decrease in both freight and passenger rates."

Rayburn said the senate labor memory if there was a substantial decrease in both freight and passenger rates."

MISSISSIPPI UTILITIES MUST PAY SALES TAX

Judge Rules That Firms Have No Legal Right To Charge Consumers Levy.

JACKSON, Miss., June 2 .- (P)-Chancellor V. J. Stricker, in a farreaching opinion handed down in Hinds county chancery court, today ruled that power companies and other utilities have "no legal right" to pass on to consumers Mississippi's 2 per cent sales tax.

In so ruling the court issued a man-datory injunction restraining the Mis-sissippi Power & Light Company from adding the sales tax levy to their customers' bills and instructed the utility not to discontinue service to any customers who refused to may the tax.
